SUMMARY

Full stack developer who enjoys building websites and applications that are simple, useful, and easy to use. Experienced in developing responsive web projects, improving usability, and debugging practical issues. Uses AI-assisted tools to explore solutions, speed up development, and reduce repetitive tasks.

WORK EXPERIENCE

Full-Stack Web Developer **2024 – Present**

- Designed and developed responsive websites and web applications using HTML, CSS, JavaScript, and modern web technologies.
- Built projects from initial ideas to functional applications, with a focus on clean design and user experience.
- Used AI tools to troubleshoot problems, explore solutions, and handle repetitive coding tasks.
- Improved responsiveness, performance, accessibility, and compatibility across devices.

Web Developer / Project Developer

- Developed responsive websites and applications based on different project requirements.
- Worked with others to plan, design, develop, and test web-based projects.
- Created user interfaces focused on functionality, responsive design, and usability.
- Debugged and improved projects by identifying issues and implementing practical solutions.

Personal Portfolio Developer **2026 – Present**

- Designed and developed a personal portfolio to showcase projects, skills, and experience.
- Created interactive sections and modern visual effects to make the portfolio more engaging.
- Focused on responsive layouts, smooth interactions, and a clean user experience.
- Deployed and maintained the portfolio using Vercel.
